We decided to donate to the Heartwood Fund, in memory of our daughter Angela Rehorn. She had a degree in Marine Biology and Sustainability. In her short time with the Conservancy, she quickly realized she had found people who, like herself were passionate about wildlife and animal habitats. We remember her excitement after her first meeting with Dorthea.

Angela was a member of the Canadian Conservation Core (with Canadian Wildlife Federation), when she wrote this: "I aspire to live an eco-conscious life, spend lots of time outdoors, provide service to my communities and inspire others." The Heartwood Fund promises a world she desired to live in, with abundant and diverse habitats that will benefit all of us.

- Joan Vincent and Roland Rehorn are volunteers, monthly supporters and donors to the Heartwood Fund.
