

Booking Your Photography Session at a Nature Reserve

The Couchiching Conservancy is a non-profit, charitable land trust, dedicated to protecting nature for future generations. There are thousands of acres of wilderness protected in the region thanks to members, supporters and volunteers, and many Nature Reserves are open to the public.

Some of the Nature Reserves are popular for loved ones to gather for family photos, engagement, wedding and other types of photography. Photographers charging a fee to customers and using one of the Nature Reserves as a location need to (1) book the date and time with the Conservancy, and (2) help protect nature with a contribution towards our work. Your support allows us to upkeep the trails, bridges and protect the Reserves.

Booking your session is important to ensure your date and time doesn't conflict with a Conservancy event, especially at the Grant's Woods Nature Reserve which is also the location of our office. Please see our ***Frequently Asked Questions*** section on page 4 for more information.

Frequently Asked Questions

Who Needs a Permit?

Anyone wishing to use the Reserves for student, commercial, corporate, or documentary photography or filming must apply for a booking at least five days in advance. This includes any kind of wedding photo shoot, whether or not the photographer is a professional.

Will You Have Exclusive Use of the Location?

No, your booking grants you permission to take photographs on the Reserve, but many of the Reserves are also open to the general public. Depending on the time of year there may also be school groups, tours, or other groups on site at the same time as you. We try our best to encourage groups to book in advance to avoid disappointment but we cannot always anticipate how busy a location will be.

How Can We Be Good Nature Reserve Visitor?

- Please stay on the trails and respect all postings with regards to trail or area closures;
- Keep your pet(s) on leash so wildlife are protected and all visitors can enjoy;
- Pack out any garbage or recycling;
- Do not use props that could affect the peace of the Nature Reserve such as smoke bombs, sparklers, fireworks, etc.
